

Intrinsically Safe Pocket Flashlight Ex-Penlight

The Ex-Penlight with its handy ballpoint pen shape is ideal for close range lighting in the Ex area.

Whether it is a poorly lit distribution box or conduit box in a dark corner, with this pocket flashlight you can bring everything into the right light.

It can be comfortably carried in a jacket or shirt pocket and its clip ensures secure retention.

Provides a spotlight in the Ex area when carrying out testing work in restricted places.

- robust and reliable
- ballpoint pen format, fits in a jacket pocket
- simple, practical, one hand operation
- secure retaining clip
